INTELLIGENT BLUETOOTH LOCKING SYSTEMS FOR **FORWARD-THINKING** COMPANIES

ojmar[®]

INTELLIGENT LOCKING SYSTEMS

ENG

Our premium solutions for staff lockers and access control systems are as sleek as they are functional.

Now, your workforce can enjoy completely hands-free access with combined smartphone and Bluetooth technology.

MAKE LOCKER USAGE A SEAMLESS AND EFFICIENT START TO THE WORKING DAY.

Reduce transition time and maximise efficiency with our seamless locker solutions.

Eliminate problems from broken locks and lost keys and get your employees to their duties faster, with fully reservable and free-use lockers.

Our fully manageable solutions allow you to provide both reservable and designated lockers, as well as supporting your social distancing policies, by selecting which lockers may be used.

From keypads to RFID wristbands...

NOW TOUCH-FREE BLUETOOTH SOLUTIONS USING THE EMPLOYEES' OWN SMARTPHONE, WE HAVE A SOLUTION FOR EVERY PROGRESSIVE COMPANY.

THE OCS SMART LOCK A KEY-FREE LOCK

THE OCS SMART LOCK IS A STATE-OF-THE-ART KEY TOUCHPAD LOCK, WHICH CAN ALSO BE OPERATED VIA AN APP ON A SMARTPHONE.

The lock can be operated by the touchpad, or by downloading the **Ojmar app** which allows the user to lock and unlock the locker with the user's own Smartphone, completely contact-free.

With the OCS Smart, managers have full control of the lock and can set, change or delete features or functions via the keypad or by Bluetooth connection to the lock using a downloadable secure **management App**.

The Ojmar Smart has a **ready to go SDK** (Software Development Kit) that can be easily integrated into the operators APP if required.

CLEAN AND SAFE

The touch-free entry via a smartphone is the ultimate in hygienic locker use.

There is also the option to add an **antibacterial surface** to the keypad which, having no buttons, is easy to wipe and clean.

FULLY MANAGED SOLUTION

THE OCS SMART LOCK COMES WITH A DEDICATED MANAGEMENT APP.

...which allows remote unlocking.

The app also facilitates a full audit of every lock, supporting ongoing maintenance.

Locks can be set to either free or dedicated mode to help manage casual use and long-term hire.

During COVID-19 restrictions, certain lockers, or areas of lockers, can be temporarily de-activated to support social distancing, by simply selecting them on the app.

AT THE HEART OF THE NEW OCS SMART IS STYLE, CONVENIENCE, SAFETY AND SECURITY FOR MANAGERS AND USERS ALIKE IN A CHANGING AND DEMANDING WORLD.
